

TT3

BASIC STAINLESS STEEL CAVITY WALL TIES

The unique tangle free design of TecTies Type 3 Basic Tie offers a practical and cost effective solution for masonry cavity walls in domestic houses and small commercial buildings of up to a maximum 15m in height.

Fully tested to BS EN 846-5: 2012. The ties meet the requirements of BS EN 845-1: 2013. They will also meet the requirements of Part E of the Building Regulations for Type B in external walls.

Design Advantages

- Tangle Free - saves time and money
- Supplied in bundles - practical benefits for the bricklayer
- Safety on site
- No Boxes - minimal packaging waste
- Better storage particularly during inclement weather

200mm, 225mm, 250mm
or 300mm

26mm 45mm

All TecTies cavity wall ties are independently tested at Lucideon, a notified body number 1289, to comply with BS EN 845-1:2013.

Underwritten by TZUS – Prague
Notified Body Number 1020

Size	Cavity Width
200mm	50mm to 75mm
225mm	76mm to 100mm
250mm	101mm to 125mm
275mm	125mm to 150mm
300mm	125mm to 150mm

TT3 is a Registered Design. UK Reg. Design No. 3013341

Part E Building Regulations

TT3 Ties meet the requirements of Part E of the Building Regulations for a Type B tie in external walls which states that a masonry cavity wall tie can only be used if the measured dynamic stiffness is less than 113MN/m³.

TT3 Test Results

	200mm	225mm	250mm	275mm	300mm
Compressive Load Capacity	680N	680N	730N	1020N	1020N
Tensile Load Capacity	1330N	1330N	1244N	2540N	2540N
Displacement at 1/3 Load - Compression	0.11mm	0.11mm	0.13mm	0.14mm	0.14mm
Displacement at 1/3 Load - Tension	0.30mm	0.30mm	0.19mm	0.34mm	0.34mm
